

National Severe Weather Warning Service

Chief Forecasters Assessment

A frontal system will become slow moving across the warning area during Tuesday, bringing spells of rain, some heavy, particularly over high ground exposed to the fresh to strong easterly winds. There is uncertainty about the exact location of the heavier rain, but totals are expected to reach 15-25 mm fairly widely, with as much as 40-50 mm over some high ground.

The Met Office have issued a **Yellow Warning of Rain**

Valid from **00:05 on Tue, 05th Jan 2016** until **23:55 on Tue, 05th Jan 2016**

Rain is expected to become more persistent and at times heavy through Tuesday. Please be aware that given the already saturated ground that there is a risk of localised flooding.
